

FLANGES

Simply connect it

When detachable, tight, and pressure-resistant connections are required, there is no way around welding neck flanges. With outstanding quality, we make sure that you get the right connection and provide you with flexible, dynamic, and complete solutions for your connection problem.

Our product range includes Flanges manufactured according to different standards such ASME, MSSP, API, BS, JIS, GOST. Of course, we manufacture all our flanges according to drawings.

We respond flexibly to customer-specific requirements and develop individual solutions for our clients.

High product and production standards ensure the quality of our products.

This is a selection of the technical specifications for the flanges we manufacture.

Description for ASME, MSSP, API, BS, JIS, GOST	Dimension	Norm	Materials for ASME, MSSP, API, BS, JIS, GOST
Welding neck Flange	10 - 3000 mm	ASME, MSSP, API, BS, JIS, GOST	API 5L
Hubbed Slip-on Flange			A694 F42
Threaded Flange			A694 F52
Lap Joint Flange			A694 F60
Short stub end			A694 F65
Blind Flange			A694 F70
Socket Welding Flange			SA/A181 CL.70
			SA/A182 F11 CL.1, 2, 3
			SA/A182 F12, Cl. 1 & 2
			SA/A182 F22 CL.1 & 3
